FOR IMMEDIATE RELEASE

Industrial Fluid Systems Registered On SAM

Warren, MI - Industrial Fluid Systems, Inc. (IFS) is now registered on the U.S. federal government's System for Award Management (SAM) as a Veteran Owned Small Business. Being registered on SAM makes IFS eligible for contracts and business directly with the federal government. It also enables them to do work for contractors working with the federal government.

"Our goal is to provide the government with the same cost saving opportunities our current customers benefit from," said owner Paul Hampton.

Industrial Fluid Systems is a manufacturer of fluid recycling and handling equipment based in Warren, MI. Founded in 1991, IFS has extensive experience helping manufacturers in a wide range of industries maximize the performance of their fluids and minimize waste. IFS has both standard and custom equipment for processing oils, metal working fluids and cleaners. More information can be found at www.IndustrialFluidSystems.com.
